

## Contents Insurance for tenants

When renting a property it is a good idea for tenants to consider Contents Insurance. It is worth knowing that should something unfortunate happen, the tenant can't claim on the Landlords insurance.

For a small price, contents Insurance means you have one less thing to worry about. Of course it is up to the tenant to decide to take insurance or not, and tenants are free to arrange insurance through whatever company they chose, but we do strongly recommend that all our tenants take contents insurance cover.

Castle Residential Lettings has sourced an Insurance company called Rentguard.

Underwritten by AXA insurance, a big name in the insurance industry, they offer a good service and a decent policy at a competitive price.

No hard sell, just let us know if you need insurance and we can arrange for someone to call you to discuss.
